### **Terrie O'Connor Realtors Lends a Helping Hand and Participates in a Habitat for Humanity's Project**

Terrie O'Connor Realtors recently participated in a Habitat for Humanity building project at a local home in Waldwick. The team, led by Bob Preis, Director of Construction of Bergen County for Habitat for Humanity, contributed their building, organizing and teamwork skills to the project. The job consists of converting a 1790 home into a multi-family property made up of four houses.

"It was a very rewarding day to be able to assist with Habitat's building project that will provide homes for those otherwise unable to afford their own" said Tricia Santo, Sales Associate and spearhead of the Ramsey office's involvement with Habitat for Humanity.
