### **Terrie O'Connor Realtors Ramsey Office Looks Forward to a Robust 2010**

Recently it was extremely busy for local Realtors as they prepared for National Open House Weekend. April is recognized as the National Fair Housing Month and also kicks off the start for the spring market.

Terrie O'Connor Realtors Ramsey Office hosted 16 open houses that very publicized weekend. The company itself hosted over 30 open houses which was 1/5 of the total open houses advertised in the Bergen Record over that weekend.

"We are extremely satisfied with the turnout from the community during National Open House weekend. It proves that the housing market will continue to move and buyers are out there looking for their next place to call home," said Stan Zaremba, VP/Regional Manager and Broker/Manager of the Ramsey office.

This was a very important weekend because the First Time Home Buyer Tax Credit was reaching its deadline.

"I had over 30 groups of people through my open house, not all seeking the tax credit...in my mind this is a real indication of a vibrant spring market and the overall health of the real estate market in the area," said sales associate Peggie Breslin.

Be sure to check out a list of open houses being held each week. Call 201-934-0600 if you are interested in viewing a property at any time.
